Bidhan Dhakal

Tulsipur, Nepal - bidhandhakal365@gmail.com - bidhandhakal.com.np

PROFESSIONAL SUMMARY

Self-driven Full Stack Developer with strong proficiency in modern web technologies (HTML5, CSS3, JavaScript/TypeScript, React, Next.js, Tailwind, Three.js). Demonstrated ability to design and deliver scalable, responsive applications-from real-time chat tools to e-commerce platforms. Proven track record of shipping well-architected, maintainable code for both SMEs and enterprise infrastructure.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Three.js

Backend & CI/CD: Node.js, serverless frameworks (via Next), RESTful APIs

Developer Tools: Git & GitHub, Postman, Vercel deployment, authentication practices

Other: Responsive design, real-time WebSocket communication, QR/URL utilities

PROJECT & WORK EXPERIENCE

Chatrex (Next.js + TypeScript, live chat)

- Built a secure, real-time chat application featuring user authentication, multi-room chat, and live messaging.

Luxera (React + Tailwind)

- Developed a feature-rich e-commerce platform for premium printed clothing.

Colour Picker Tool

- Crafted a standalone web utility supporting multiple color formats and palette options.

URL Tools

- Created an all-in-one tool for URL shortening, QR code generation, and text-case conversions.

Nepal Wireless Management System

- Engineered a bespoke network monitoring and billing dashboard for a major Nepalese ISP.

Bidhan Dhakal

Tulsipur, Nepal - bidhandhakal365@gmail.com - bidhandhakal.com.np

SELECTED ACHIEVEMENTS

- Designed full-stack SaaS-style systems enabling e-commerce and network monitoring workflows

- Launched real-time features (chat, monitoring alerts) with speedy UX and reliability

- Delivered utility apps adopted by developers and designers for daily productivity

- All tools built with maintainable, well-documented code; portfolio linked for live demos and GitHub source

EDUCATION & AVAILABILITY

Bachelor's Degree in Computer Science (add university details if available)

Status: Available now for freelance or full-time roles; quick response time

WHY HIRE ME

- Full Stack Expertise: Command of both client and server-side development; end-to-end project ownership

- Modern Stack Mastery: Proficient with industry-standard frameworks and best practices

- Results-Oriented: Delivered diverse projects - from network tools to full e-commerce stacks

- Self-Motivated: Independent learner with active, visible portfolio and live deployments
